

IN THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

Claims 1-9 (Canceled)

10. (Currently amended) A case-safe system comprising:

~~a stationary housing adapted to be secured in closets, on walls or in vehicles, in boats, in air planes and in bank safes,~~

~~a closable case adapted for being received in the housing, wherein the case can be inserted and barricaded or locked by the housing;~~

wherein the housing includes first locking boreholes for locking and for receiving locking bolts associated with the case, and that the case is provided with its own independent security locking system.

11. (Previously presented) A case-safe system according to Claim 10, wherein the security locking system is a lock with key, a combination lock, a magnetic card lock or a electronic lock.

12. (Previously presented) A case-safe system (10) according to Claim 10, wherein the first locking boreholes are provided with reinforcements.

13. (Currently amended) A case-safe system comprising:

~~a stationary housing adapted to be secured in closets, on walls or in vehicles, in boats, in air planes and in bank safes,~~

a closable case adapted for being received in the housing, wherein the case can be inserted and barricaded or locked by the housing,

wherein the housing includes first locking boreholes for locking and for receiving locking bolts associated with the case, and that the case is provided with its own independent security locking system,

wherein the housing include second locking boreholes for a locking rod or bar.

14. (Previously presented) A case-safe system according to Claim 13, wherein the locking rod or bar can be secured with a lock.

15. (Currently amended) A case-safe system comprising:

a ~~stationary~~ housing ~~adapted to be secured in closets, on walls or in vehicles, in boats, in air planes and in bank safes,~~

a closable case adapted for being received in the housing, wherein the case can be inserted and barricaded or locked by the housing,

wherein the housing includes first locking boreholes for locking and for receiving locking bolts associated with the case, and that the case is provided with its own independent security locking system;

wherein the housing includes a cover ~~concealment covering and/or a shield.~~

16. (Previously presented) A case-safe system according to Claim 10, wherein the housing and/or the case is comprised of a fire resistant material.

17. (Previously presented) A case-safe system according to Claim 10, wherein the housing and/or the case is comprised of steel, cast aluminum or extruded metal parts.

18. (Previously presented) A case-safe system (10) according to Claim 10, wherein the stationary housing comprises multiple housings connectable with each other.

19. (New) A case-safe system comprising:

a housing;

a closed case for being received within the housing, the case comprising a handle, an independent security locking system, and a locking system associate with the housing.

20. (New) A case-safe system (10) according to Claim 19, wherein the casing further comprises a cover.

21. (New) A case-safe system (10) according to Claim 20, wherein the cover is made of leather or cloth.

22. (New) A case-safe system comprising:

a housing;

a case for being received within the housing, the case comprising a body portion defining a receptacle having a hinge top flap extending over the receptacle for closing the same, a handle, anchoring means at each end of said handle for securing the handle to the top flap, and a locking system associate with the housing;

U.S. Application No.: 09/830,732
AMENDMENT C

Attorney Docket: 2368.119

wherein the housing includes first locking boreholes for locking and receiving locking bolts associated with the case.

23. (New) A case-safe system according to Claim 10, wherein the housing is stationary and is adapted to be secured in closets, on walls or in vehicles, in boats, in air planes and in bank safes.
